## RoscoVIEW System

The RoscoVIEW is comprised of two separate components:

- 1) RoscoVIEW Film for the window.
- 2) RoscoVIEW Filter for the camera.

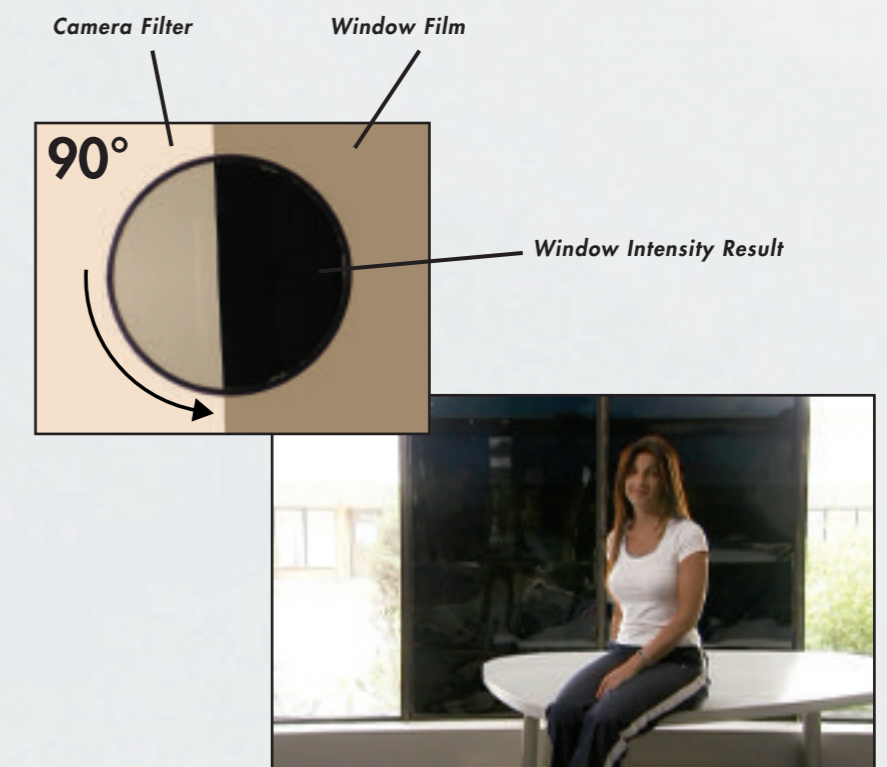

When utilized together, you are able to instantly control 100% of exterior brightness as seen through windows without effecting the lighting and exposure within the studio.

## Features:

- **Optically Clear, wide width, high transmission film.**
- **Neutral grey.**
- **UV Resistant.**
- **Neutral Density equivalent: less than 1 stop at 0° linear.**
- **Near total blackout at 90° cross polarization.**
- **1.42m x 2.44m rolls.**
- **Also available 1.42m wide x linear metre for custom sizes.**

## Benefits:

- **You can instantly compensate for changes in the daylight exposure as seen through the windows.**
- **Reduce studio down-time, no more change out of filter, increase shooting time.**
- **Great for areas where it is difficult to re-apply filter regularly.**
- **More economical for larger window surfaces.**
- **Any size window can be accommodated by seaming two or more panels together.**
- **RoscoVIEW Film can be mounted in frames or can be incorporated on the RoscoShade™ system.**
