

Introducing Cineo ReFlex R15: a whole new category of hybrid media production lighting. ReFlex re-defines high-output hard lighting sources, while giving you a new level of high-output soft lighting options.

Cineo has developed many new, groundbreaking technologies to deliver 125,000 lumens of digital lighting with less than a 1,500 watt AC power draw. By providing constantly variable CCT, it can replace a 10K tungsten, a 6K HMI and everything in-between. Beam angle adjustment from 15 to 50 degrees is accomplished without mechanical movement, making it remotely adjustable; and the new beam shape control opens a whole new realm of possibilities. By simply pulling a lever, the reflector can be replaced with a variety of soft accessories, including Snapbags®, lanterns and spacelight bags.

Cineo has completely re-designed its control strategy, making it as easy to use as your smart phone. A full complement of remote control protocols are supported including DMX/RDM and CRMX wireless, with sACN, ArtNet and Bluetooth soon available. All this in a completely integrated, waterproof package weighing 60 lbs.

Scheduled availability of Cineo ReFlex R15 is Q1 2020.

Specifications

125,000 lumen output
Variable white light: 2700-6500K
Digitally variable beam angle: 15° to 50°, local or remote control
Digitally controlled beam shape, local or remote control
Flicker-free dimming, 0-100%, local or remote control
Intuitive touchscreen local control
5-pin wired DMX/RDM In, Thru and Re-gen
Integrated Lumen Radio™ CRMX wireless control
sACN/ArtNet capable; bluetooth ready
Removable reflector with optional soft lighting accessories
Removable mounting yoke includes removable Junior Pin
(3) Reinforced hang points for top-hanging
Input Power: 110-240VAC 1500 watts max.
Integrated power supply
Fixture Size: 19"l. x 31.5"w. x 26" dia. (48.3cm l. x 80cm w. x 66cm d.)
Weight: 60 lbs. (27.3kg.)
Silent, active cooling
Environmental temperature range: -20°C - +40° C
Max. temperature rise: +40° C
ETL, cETL, CE pending
Made in USA
